

Hi. I'm concerned about losing KLOVE (91.1 FM) radio in my area due to priority given to Low Power FM. I adore this station for its positive message and music, a rare find. Info is given about local events that other stations don't describe, as well as what's up nationally. KLOVE also provides a service to local churches by keeping us up to date on the latest songs we all can use in our services. Please protect my station from LPFM!! Thanks, Karen Anderson
